

The Sandblaster

The President's Message / Jim Schneider

January 2010

Fellow Members:

Although most likely you have heard by now, the Board of Trustees has elected me to continue as your President for the calendar year 2010. I will work very hard at this responsibility the Trustees have bestowed upon me. **Dave Cox** was elected Vice President and **Dave Mailer** was elected Secretary. I extend the Club's sincere thanks to **Dave Koshork** and **Dan Gleason** for their years of committed hard work and devotion to the betterment of Twin Lakes.

We congratulate **Gene Edwards, John Ward, Dave Mailer** and **Glenn Olson** on having been elected to the Board of Trustees of Twin Lakes. They join existing members **Eric Marshall, Teddy Hall, Dave Cox** and me. We have reorganized the Trustee responsibilities in order to provide efficiencies with our Trustees, committees, staff and members. We are almost complete with the committee chair assignments and we will announce those soon.

We do know that John Ward will head our Financial team, Gene Edwards will head our Membership team, Dave Cox will be our Club House Operations Director, Eric Marshall will be our Golf Course Operations Director and Dave Mailer will be our Golf Committee Director. Glenn Olson will be the

liaison to the House committee and Gene Edwards will also be the liaison to the Social committee. Additionally, Ted Hall will be the liaison to the Planning Committee and will continue to assist me and the Trustees with special committees and projects as the need arises. The experience and leadership of the 2010 Trustees is strong and stable as we continue forward with the challenges facing TLGCC.

The Amenities Program is scheduled for a Twin Lakes Homeowner's vote on Saturday morning, February 6 at 9:30 am. Our Trustees are solidly behind this agreement as we continue to closely assist the Homeowners Association Board and work toward a successful vote. While the TLGCC has many other options that can be implemented to insure the survival of the Twin Lakes, the Amenities Program is the one that will provide the most financial stability and allow for the most consistent quality with very little changes in the level of services provided. Actually, the passage of the Amenities Program may well allow for an expansion of services, such as a fitness room, pool improvements and clubhouse enhancements.

However, I want to reiterate that while the Trustees strongly support the Amenities Program, we are at the same time continuing to pursue every other viable alternative. The Amenities Program contract has been finalized and will be mailed by the HOA to its membership in early January. If you wish to review the contract, FAQ, and other documents, please visit the website:
